

CLAIMS

What is claimed is:

1. An apparatus, comprising:

a housing;

a handle coupled to the housing, the handle extending beyond a top edge of the housing to provide a top edge clearance and extending away from a back side of the housing to provide a back side clearance;

a keyboard tray coupled to the housing, the keyboard tray including a stand and a keyboard, wherein the keyboard tray is unfolded from the housing to support the housing in an upright position.

2. The apparatus of claim 1, wherein the housing includes a front side and a back side, and wherein the handle is coupled to the housing at the back side.

3. The apparatus of claim 2, wherein the handle is affixed solidly or semi-solidly to the back side.

4. The apparatus of claim 3, wherein the handle is stationary.

5. The apparatus of claim 4, wherein the keyboard tray is coupled to the housing at the back side and below the handle.

6. The apparatus of claim 5, wherein the keyboard tray is coupled to the housing at substantially near bottom of the back side of the housing using a hinge mechanism.

7. The apparatus of claim 6, wherein the hinge mechanism enables folding or unfolding of the keyboard tray relative to the back side of the housing.
8. The apparatus of claim 8, wherein the keyboard is retractable relative to the keyboard tray.
9. The apparatus of claim 8, wherein the keyboard is a wireless keyboard.
10. The apparatus of claim 8, wherein the keyboard tray further includes a remote control device.
11. The apparatus of claim 10, wherein the remote control device is capable of sending infrared (IR) signals.
12. The apparatus of claim 10, wherein the remote control device includes a pad that can be used for a cursor control device.
13. The apparatus of claim 10, wherein the keyboard tray further includes a wireless telephone handset.
14. The apparatus of claim 14, wherein the wireless telephone handset is to include a Bluetooth communication module.
15. The apparatus of claim 7, wherein the front side of the housing includes a display screen.

16. The apparatus of claim 15, wherein the front side of the housing further includes a fingerprint sensor.

17. The apparatus of claim 16, wherein the front side of the housing further includes a video camera.

18. The apparatus of claim 17, wherein the front side of the housing further includes one or more speakers.

19. The apparatus of claim 18, wherein the front side of the housing further includes an array of one or more microphones.
